

Annual Boat Launch Pass

As of **February 2025**, the **Wisconsin Department of Natural Resources (DNR)** has raised its boat launch rates **statewide** to support ongoing maintenance and environmental conservation efforts. In **accordance with the DNR's changes**, the **Village of Twin Lakes is adjusting its launch fees and improving our tracking system** to ensure the long-term sustainability and accessibility of our waterways.

1. Tracking Boat Launch Usage for Future Planning

- We need a clearer understanding of how many people use our boat launches, how frequently they launch. This information will help the village plan for future improvements, such as ramp repairs, dock expansions, or congestion management on busy weekends.

2. Ensuring Fair & Accurate Distribution of Passes

- By keeping better records, we can prevent misuse of discounts and ensure that passes are going to the right individuals.

3. Supporting Maintenance & Enforcement Costs

- The costs of maintaining safe and accessible boat launches continue to rise due to increased use, weather-related wear and tear, and compliance with state regulations. The modest fee increases will help fund maintenance, dock repairs, dredging, and enforcement of launch regulations to keep the lakes accessible for all.
